Enthusiastic Oracle DBA & OCI Administrator with hands-on experience in Oracle Database 19c installation, configuration, RMAN backup, and Oracle Cloud Infrastructure setup. Currently working as a Technical Consultant Intern focused on database and cloud tasks, with strong Linux skills and a passion for real-time database management. Seeking an opportunity to contribute and grow in a production-focused role.

Experience

JAN 2025 – PRESENT

Oracle Consultant Associate

- Installed and configured Oracle 19c database instances on Linux servers.
- Managed database users, roles, privileges, and basic security setup.
- Performed RMAN backups and tested recovery operations in lab/test environments.
- Provisioned and configured OCI compute instances and networking components.
- Designed VCN and Subnet architecture with security lists and gateways.
- Provided troubleshooting support for database and server connectivity.

Technical Skills

Oracle Database Administration

• Oracle 19c Installation & Configuration on Linux • Database Creation (DBCA & Manual) • User, Role & Privilege Management • Tablespace & Redo Log Management • RMAN Backup & Restore • Archivelog Mode Implementation • Data Pump Export/Import • Listener & Network Configuration • Basic Query Performance Tuning • Database Startup & Shutdown

Oracle Cloud Infrastructure (OCI)

• Compute Instance Provisioning • VCN & Subnet Setup (Public/Private) • Internet Gateway & Route Table Configuration • Security Lists & Access Rules • IAM Users, Groups & Policies • Block Volume Creation & Attachment • SSH & Remote Server Management

Linux Administration

• User & Permission Management • File System & Directory Structure • Process Monitoring & Services • Disk & Memory Monitoring • Package Installation & Troubleshooting

Education

B.Tech in Computer Science & Engineering (2025)

Vidya College of Engineering, Meerut

Diploma in Computer Science & Engineering (2022)

MAHGU, Pauri

Secondary Education (2019)

Growell School, Baraut

Core Strengths

- Strong practical implementation & problem-solving mindset
- Good understanding of database & cloud fundamentals
- Quick learner with self-driven lab expertise
- Linux troubleshooting confidence
- Professional immersion in Oracle & OCI tasks
- Eager to transition into production-level DBA role
